**United Nations Economic Commission for Europe  
Statistical Division**

# **Post-2015 Agenda**

**Lidia Bratanova  
Namur 2014**

# Outline

- ❖ Measuring Sustainable Development
- ❖ Data revolution/Modernisation
- ❖ Monitoring and accountability

# Introducing UNECE Statistics

- ❖ Regional Commission of the UN
- ❖ 56 Member countries
  - Europe, North America, Central Asia
- ❖ Many other countries join our work
  - Australia, New Zealand, Mexico, ....
- ❖ Overseen by the Conference of European Statisticians (CES)
  - Annual meeting of chief statisticians

## 4 Strands in the current debate

- ❖ Measuring Sustainable Development
  - Reporting on SD Goals
  - Measuring Progress of society, GDP and Beyond
- ❖ Data revolution for SD
- ❖ Monitoring and accountability
- ❖ Financing for development, governance

**The SDGs also call for “Taking urgent action to combat climate change and its impacts”**

# Setting the stage

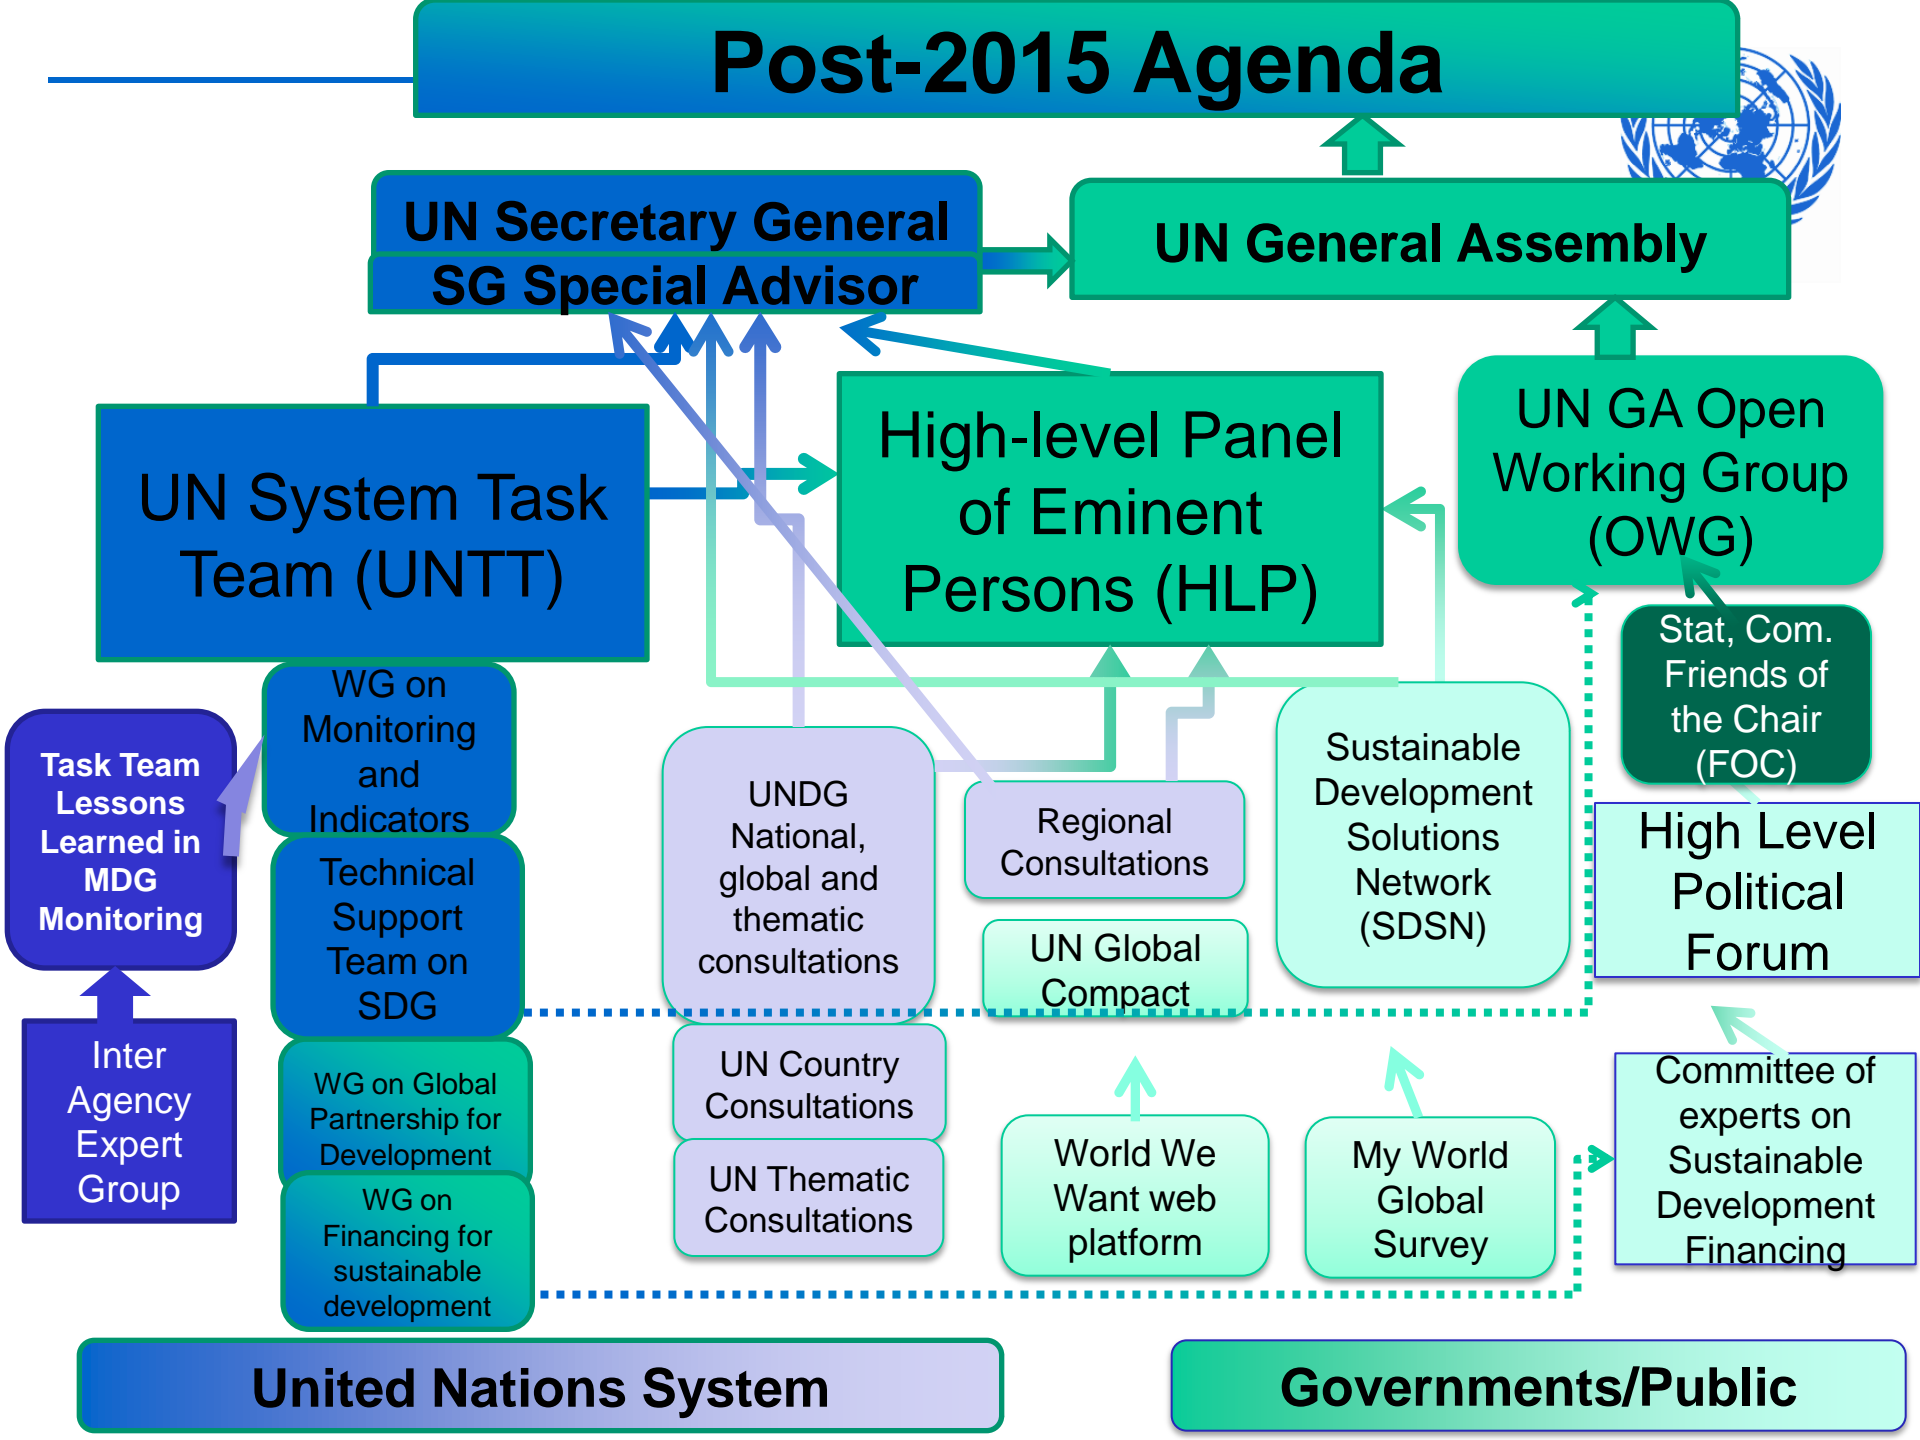

## ❖ **MDGs, critique**

- Focused more on least-developed countries
- Inconsistencies between goals, targets and indicators
- Top-down approach, no consultation
- Statisticians were not involved

## ❖ **Post-2015 agenda**

- Open, inclusive consultations
- Universal Goals, valid for all countries
- Statisticians are involved

# Post-2015 Agenda

# Post 2015 process and statistics

- ❖ **Rio+20, “The Future we want”**
  - Broader measures of progress to complement GDP
  - Requested statisticians to launch work in this area
- ❖ **High-level Panel of Eminent Persons**
  - Called for a data revolution
- ❖ **UN Expert Group on Broader Measures of Progress**
- ❖ **Draft SDGs, Synthesis report (**The Road to Dignity by 2030**), Report on Data revolution**

# Measuring SD, Measures of progress

- ❖ 2005, UNECE/Eurostat/OECD work on Measuring SD
- ❖ 2007, OECD Project on Measuring Progress
- ❖ 2009, EU “*GDP and Beyond*” and *Commission on Measurement of Economic performance and Social Progress* (Stiglitz and others)
- ❖ 2011, OECD Better Life Initiative; Eurostat Sponsorship Group on Measuring Progress, well-being and SD
- ❖ 2012 E-frame for Measuring Progress
- ❖ **End 2013, UNECE published CES Recommendations for Measuring SD**

# CES Recommendations for Measuring SD

- ❖ Framework with a set of indicators
- ❖ 3 pillars of SD – economic, social, environment
- ❖ 3 dimensions of human well-being: here and now, later and elsewhere
- ❖ Links theoretical concepts and policy needs
- ❖ 3 sets of indicators are recommended
- ❖ Informed the development of SDGs

# CES Recommendations

## ❖ **8 countries pilot tested the indicator sets**

- Australia, Italy, Kazakhstan, Mexico, Russia, Slovenia, Turkey, Ukraine

## ❖ **Outcome**

- All produce the majority of 95 indicators (Australia - 80%)
- Appreciated the flexibility – could adjust national indicators to fit into the framework
- Suggestions for the missing “place holders” (22 of 95)
- Willingness to produce certain indicators not currently produced

---

# CES Recommendations

- ❖ An important input to defining the indicators for reporting on the SDGs
  - Currently 50 of the 95 CES indicators are used in mapping against the SDGs and targets
  
- ❖ Further methodological work
  - Measuring trans-boundary impacts
  - Linking subjective and objective indicators
  - Social, human and natural capital

UNITED NATIONS ECONOMIC COMMISSION FOR EUROPE

**Conference of European Statisticians Recommendations on  
Climate Change-Related Statistics**

UNITED NATIONS

---

# The World that Counts :Data revolution

- ❖ Recommends a program of action – the need for innovation, financial resources and coordination
- ❖ Role for governments, international and regional institutions, statistical systems, civil society, private sector, academia and scientists
- ❖ **Data are the lifeblood of decision - making**

---

# Data revolution for SD

- ❖ Not synonymous with Big data
- ❖ **It is about**
  - Understanding the impact of data on policy making
  - New types of data sources and tools, new dimension of timeliness
  - Changing culture of how we produce, disseminate, use and understand data (statistical literacy)
  - Modernization of statistical production
- ❖ Investment and support from governments
- ❖ The need for coordination, collaboration and data sharing is bigger than ever

---

# UNECE HLG on Modernisation

- ❖ High-level Group (HLG) for the Modernisation of Statistical production and Services
- ❖ Oversees activities that support modernisation of statistical organisations
- ❖ Stimulates development of global standards and international collaboration activities

**HLG**

**30+ Expert  
Groups**

**Projects**

**What has the HLG achieved  
in 3 years ?**

# GSIM

# Standards-based Modernisation

Quality Management / Metadata Management							
Specify Needs	Design	Build	Collect	Process	Analyse	Disseminate	Evaluate
0.1 Identify needs	2.1 Design outputs	3.1 Build collection instrument	4.1 Create frame & select sample	5.1 Integrate data	6.1 Prepare draft outputs	7.1 Update output systems	8.1 Gather evaluation inputs
1.2 Consult & confirm needs	2.2 Design variable descriptions	3.2 Build or enhance process components	4.2 Set up collection	5.2 Classify & code	6.2 Validate outputs	7.2 Prepare dissemination products	8.2 Conduct evaluation
1.3 Establish output objectives	2.3 Design collection	3.3 Build or enhance dissemination components	4.3 Run collection	5.3 Review & validate	6.3 Interpret & explain outputs	7.3 Manage release of dissemination products	8.3 Agree an action plan
1.4 Identify concepts	2.4 Design frame & sample	3.4 Configure workflows	4.4 Finalise collection	5.4 Edit & impute	6.4 Apply procedure control	7.4 Prepare dissemination products	
1.5 Check data availability	2.5 Design processing & analysis	3.5 Test production system		5.5 Derive new variables & units	6.5 Finalise outputs	7.5 Manage user support	
1.6 Prepare business case	2.6 Design production systems & workflow	3.6 Test statistical business process		5.6 Calculate weights			
		3.7 Finalise production system		5.7 Calculate aggregates			
				5.8 Finalise data files

# Implementation of Common Statistical Production Architecture

# Big Data

# Big Data: Priority Areas

- ❖ Partnerships – **Guidelines**
- ❖ Privacy – **Guidelines**
- ❖ Quality – **Guidelines**
- ❖ Skills – **Survey**
- ❖ IT / methodological issues - **Sandbox**

# Sandbox

- ❖ Ireland is hosting a Big Data ‘sandbox’ containing data and tools for international experiments

“Play is the highest form of research” – Einstein

---

# Modernisation priorities in 2015

## ❖ Support the Implementation of **Common Statistical Production Architecture**

### ❖ **Big Data**

- Produce joint international outputs
- Develop skills and capacity

## **More Information on UNECE HLG Wiki:**

- ❖ [www1.unece.org/stat/platform/display/hlgbas](http://www1.unece.org/stat/platform/display/hlgbas)

---

# Monitoring and Accountability (1)

- ❖ Integral part of the post - 2015 Agenda
- ❖ Data needs will be significant
- ❖ National strategies and mechanisms – a key instrument
- ❖ Relevance of SDGs will vary across countries – different roadmaps depending on national circumstances

---

# Monitoring and Accountability (2)

- ❖ **Global level** – High-Level Political Forum on SD under ECOSOC
  - Conduct reviews from 2016
  
- ❖ **Regional reviews**
  - Link between national and global levels
  - Facilitate exchange of practices and lessons
  
- ❖ **International organizations** to support the implementation of the new agenda

---

# Roadmap In 2015

- ❖ **Jan.-June** Inter-governmental negotiations on SDGs
- ❖ **February** Start developing the indicators for reporting on SDGs
- ❖ **March** UN Statistical Commission roadmap
- ❖ **July** First report on possible indicators
- ❖ **September:** High-level Summit adopts post-2015 development agenda

---

# Roadmap

## Indicator framework for SDGs

- ❖ UN FOC Group on Measuring progress recommends
  - CES conceptual framework as a useful starting point
  - Map SDGs targets with CES Recommendations to identify inter-linkages, overlaps, gaps
  - Take into account the criteria for the indicator selection used in the CES Recommendations

# Roadmap

## In 2016

- ❖ **March:** UNSC endorses Indicator framework
- ❖ **July:** Release a SDGs baseline data report for global monitoring, providing data and identifying gaps
- ❖ **March-December:** possible Release of national and regional baseline data reports
- ❖ **2016-2020:** Scaling-up of national, regional and global capacities to monitor the goals and targets

## In parallel

- ❖ Financing for statistical development and capacity building
- ❖ Methodological work, strengthening of statistical systems
- ❖ New Expert Groups will be created
  - IEAG on SDG Indicators
  - HLG for Partnership, Coordination and Capacity Building
  - World Forum on SD Data
  - The Expert Group on Broader measures of Progress will continue

---

# Three separate processes ahead

- ❖ Monitoring and reporting on SDGs
- ❖ Advancing the work on measuring SD, Progress, GDP and Beyond
- ❖ Data revolution: Advancing the work on new sources, new technology, etc. – a long-term task

---

# Conclusions

- ❖ Much has happened in measuring progress and sustainability
- ❖ CES Framework with indicators is widely quoted
- ❖ Post-2015 agenda will boost further the statistical development and capacity building
- ❖ Develop new data sources, methods and methodologies to support the Data Revolution
- ❖ SDGs will influence what will be considered as globally accepted measures of progress

# Conclusions

- ❖ Setting up a relevant mechanism for monitoring and reporting will be a challenge
  - MDGs: 8 Goals, 21 targets, 60 indicators
  - SDGs: 17 Goals, 169 targets, 600 indicators ?
- ❖ Get prepared for reporting on global SDGs and design your roadmaps!
