

## Un « New Deal » pour la mobilité en Wallonie

Futurama - IWEPS

# AGENDA

**A. Le futur de la mobilité & le New Deal**

**B. Implications pour le secteur public**

**C. Des méthodologies concrètes à mettre en œuvre - exemple**

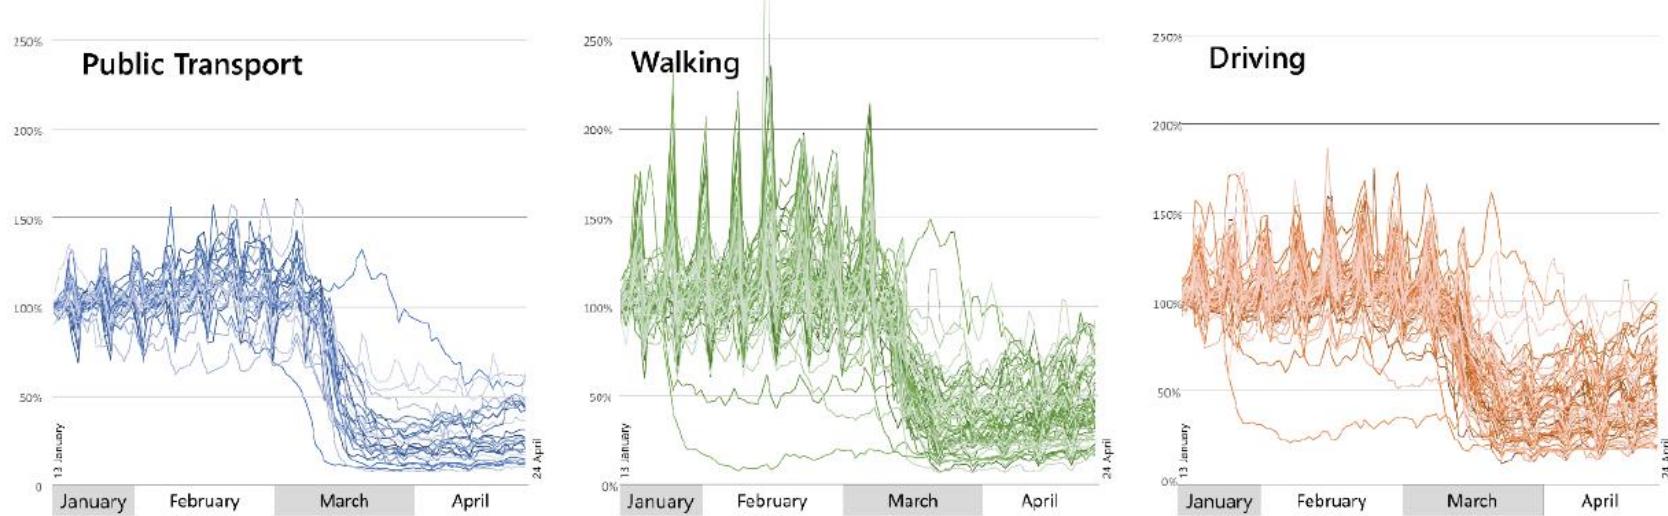

# **Le futur de la mobilité & le New Deal**

## La mobilité « aujourd’hui »

## La mobilité « aujourd’hui »

Figure 1 Sudden Collapse: Apple device trip routing requests in countries around the world

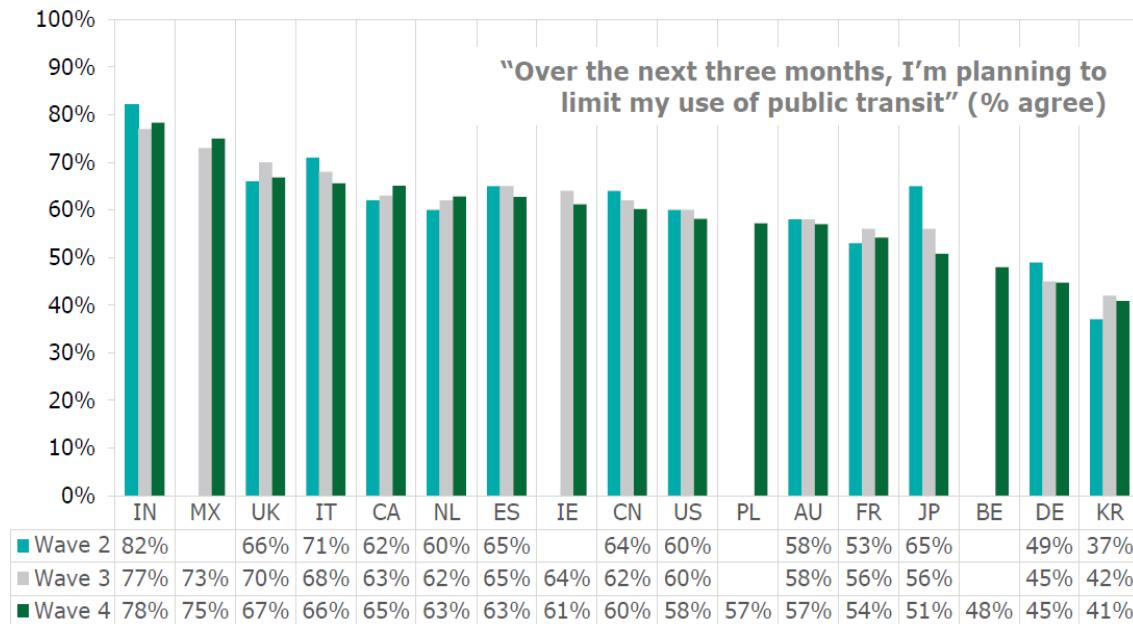

Routing requests are a proxy for travel demand and do not include most habitual trips. They give an indication of the scale of travel demand contraction where Apple devices are present and Apple routing services are used. Source: ITF based on Apple Mobility Trends

# La mobilité « aujourd’hui »

**People are wary of public transit crowds as social distancing is very difficult to manage.**

**Deloitte.**

Global State of the Consumer Tracker

\*2020 Deloitte Global Automotive Consumer Study

Note: Percentage of respondents who said “agree” or “strongly agree” have been added together.

Q6: To what extent do you agree or disagree with the following statements?

Copyright © 2020 Deloitte Development LLC. All rights reserved.

- Recent study results suggest a majority of global consumers agree that the number one solution to traffic congestion is greater access to mass transit.\*
- Having said that, the global pandemic has brought public transit to a standstill in most countries around the world.
- Current trending data suggests that even as many markets are beginning to lift restrictions on mobility, a significant number of consumers remain reticent to use shared transportation options going forward.

## Cinq tendances

D'une mobilité  
axée sur la  
voiture à **une  
mobilité axée  
sur  
l'utilisateur**

De la voiture  
individuelle à la  
**mobilité  
partagée**

D'un seul mode  
de transport à  
**une utilisation  
multimodale**

Du physique au  
**digital**

Du thermique à  
**l'électrique**

## Les trois axes prioritaires

**1**

**2**

**3**

Renforcer  
**l'attractivité**  
des  
**alternatives**

Agir sur **les**  
**comportements**

Si vous  
conduisez,  
**conduisez vert**

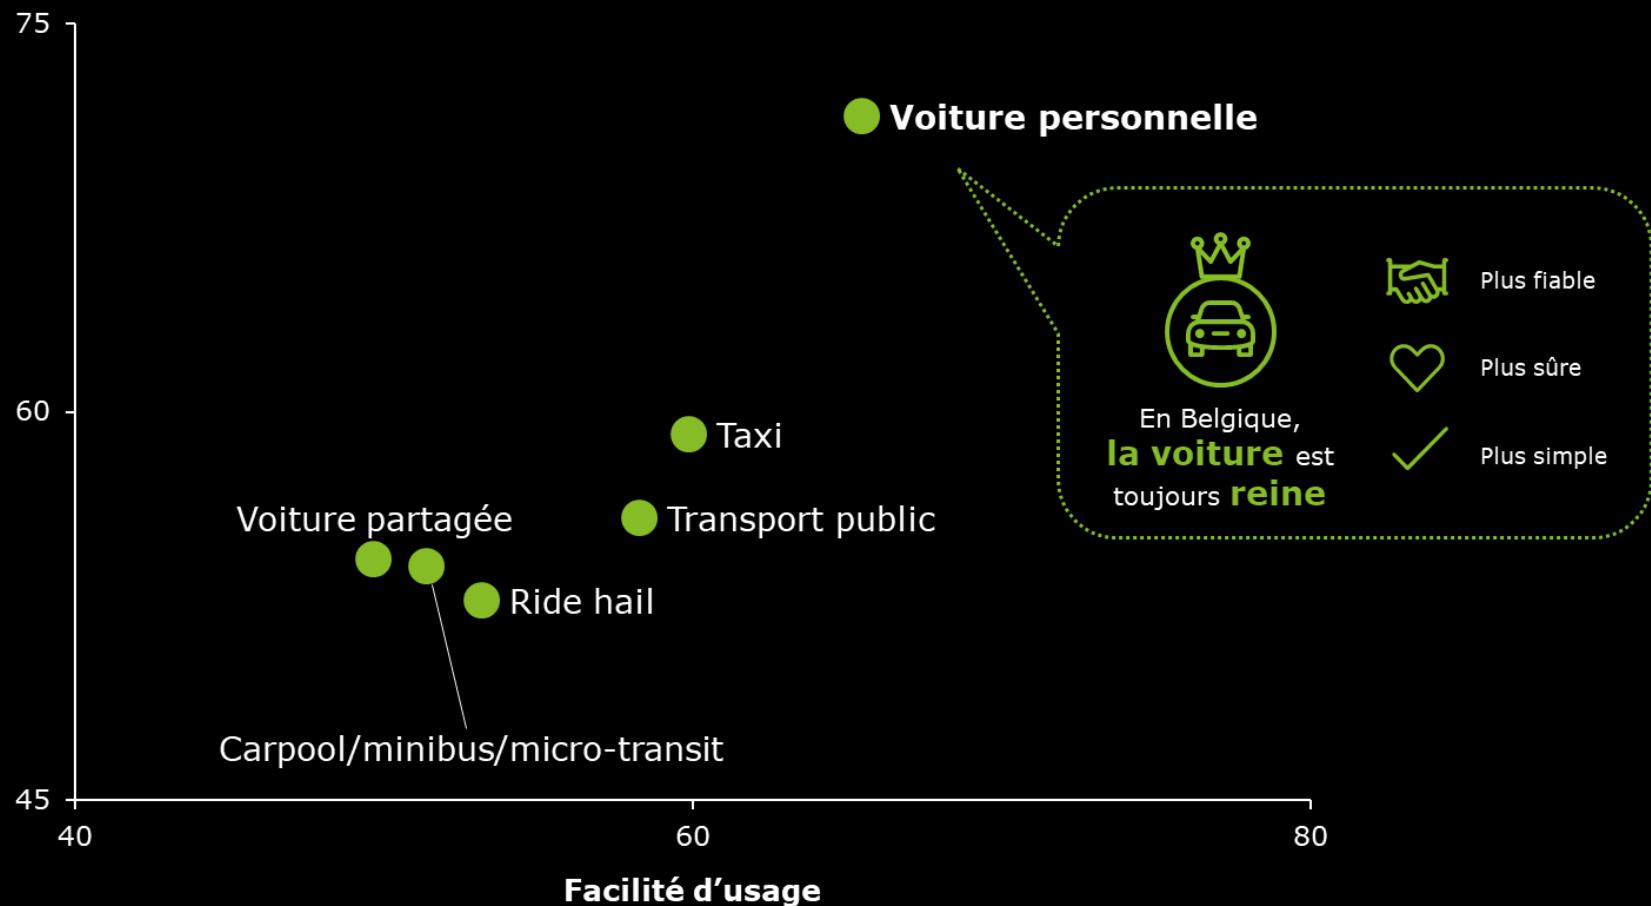

- Construire des mobipôles
- Déployer des solutions Mobility-as-a-Service

- Augmenter la prise de conscience
- Développer la pratique du vélo
- Adapter la politique fiscale

- Solutionner le problème du chargement
- Agir sur les prix
- Garantir la faisabilité

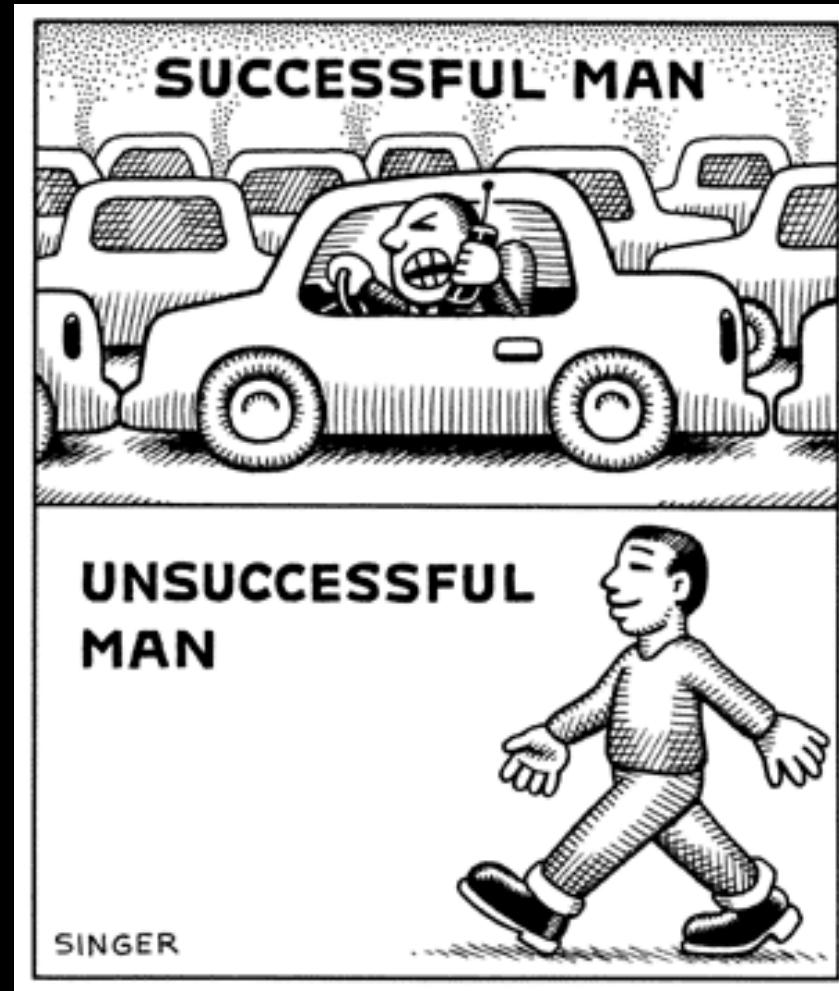

## Renforcer l'attractivité des alternatives

### Fiabilité
